Lumiplan is a leading French group in the field of dynamic communication solutions, enhancing the passenger experience for locals and tourists alike.

As a major European leader in dynamic communication, Lumiplan imagines, designs, and implements innovative solutions to raise regional profiles. With activities in the fields of public transport passenger experience, urban communication to citizens, and enlivening mountain holiday destinations, Lumiplan has real time information solutions to suit every context. The group has achieved steady year-on-year growth since its founding in 1972. With over 4,000 active customers and with presence in over 30 countries across 6 continents worldwide, Lumiplan's turnover reaches €55m, 30% of which come from exports.
